Tony Herber
Agent, Scientific & Regulatory Consultants, Inc.
The Clorox Company
c/o PS&RC; O.O. Box 493
Pleasanton, CA 94566-0803

Subject: Label Amendment – Application to Add Website; Revise Directions for Use,
Marketing Claims, Product Lifespan
Product Name: “Hockey Puck II”
EPA Registration Number: 5813-66
Application Date: October 29, 2018
Decision Number: 546411

Dear Mr. Herber:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

Page 2 of 2
EPA Reg. No. 5813-66
Decision No. 546411

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Michael Varco by phone at 703-347-0403, or via email at Varco.Michael@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Fuller", with a long horizontal line extending to the right.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Sanitize, Clean, and Deodorize:

For best results, clean toilet bowl thoroughly, including under the rim.

1. Cut open package. Do not touch tablet directly.

2. Flush toilet. When water level in tank is low, drop tablet into the right rear corner of the tank (see diagram).

3. When tablet has dissolved, replace with this product.

Each tablet sanitizes the toilet water in 5 min[utes] for 6 weeks. -or- Sanitizes toilet bowl water by killing 99.9% of household bacteria within 5 min[utes] after each flush.

Effective for up to 10 flushes per day [in toilets with 1.6 or fewer gallons per flush].

Tablet should be used in toilets that are flushed daily -or- regularly.

***This will be in a larger font on the pouch label* IMPORTANT:** Retain tablet pouch for precautions and first aid instructions.

STORAGE AND DISPOSAL:

Store in original container in areas inaccessible to small children in a cool, dry, well-ventilated area. Do not store at elevated temperatures.

Offer empty container for recycling. If recycling is not available, discard empty container in trash.

[Does not harm septic tanks -or- septic systems.]

Antimicrobial Claims

- Also kills 99.9% of Streptococcus faecalis -or- Enterococcus faecalis [(Strep)], and Staphylococcus aureus [(Staph)]!
- Antibacterial [formula]
- Each bleach rinse kills 99.9% of household bacteria
- [Each tablet] Sanitizes [for up to] [6 weeks -or- 1.5 mon[ths] for one pack] [12 weeks -or- 3 mon[ths] for 2 pack] [6 mon[ths] for 4 pack]
- Bacteria control for up to 6 weeks
- Bacteria fighting [formula]
- Kills 99.9% of bacteria like Streptococcus faecalis -or- Enterococcus faecalis [(Strep)], Staphylococcus aureus [(Staph)] and Salmonella enterica^[1] [(Salmonella)]
- Kills 99.9% of household bacteria -or- micro-organisms
- Kills 99.9% of household bacteria -or- Streptococcus faecalis -or- Enterococcus faecalis [(Strep)], Salmonella enterica^[1] [(Salmonella)], Escherichia coli [(E. coli)], and Staphylococcus aureus [(Staph)] within 5 min[utes] for 6 weeks -or- 1.5 mon[ths].
- Kills 99.9% of household bacteria [in toilet bowl water]
- Kills 99.9% of household bacteria [with every flush]
- Kills 99.9% of household bacteria in toilet -and/or- bowl water [after each flush]
